DANUBE

Celebrates it's

DANUBE GROUP

Established in the year 1993, Danube Group was founded and cultivated under the leadership of Rizwan Sajan, who is the known to be the Founder and Chairman of the Group. Starting off as a small trading firm, the company is moving from strength-to-strength, expanding its foothold in the region, and has established itself as the No. 1 building Materials Company along with other branches under its vast umbrella. In 2015, the company recorded a turnover of AED 5.14 billion and has been growing ever since.

ABOUT MILANO

Milano, wholly owned by Danube Group, was established in Italy in 2006 and registered worldwide. The brand exhibits a wide range of affordable luxury products under one roof. The products portfolio include: sanitary ware, electrical products, tiles, water purifier, hardware and furniture fittings. We cater to our global clientele through a worldwide network of commercial branches, representative offices, distributors and project partners. Our team of experts oversee 5 divisions with 50 showrooms in Middle East and the support of more than 5000 distributors across the world. Milano has earned an unparalleled reputation as one of the leading brands in 47 countries. Whether you like simplicity or luxury, Milano range covers all individual preferences and serves as a one-stop solution to suit all kinds of lifestyles. Milano ensures that its products live up to the uncompromising demands in terms of workmanship and functionality.

VISION

Our vision is to be globally recognized brand that provides affordable luxury sanitary ware, electrical products, tiles, water purifier, hardware and furniture fittings.

MISSION

Our mission is to set and maintain high standard of quality, technology, design and sustainability. We set our standards high to ensure that every time you purchase a Milano product, you can feel the difference.

VALUES

Quality : Provide outstanding products and unsurpassed customer service that together deliver premium value to our customers and distributors.

Integrity : Uphold the highest standards of integrity in all of our actions.

Commitment : Develop lasting relationship through commitment towards our teams, our services and products so as to become the best.

MESSAGE FROM MANAGING DIRECTOR

MR. ANIS SAJAN
Managing Director Danube Group

Milano has continued the course of success with focused and advanced vision. Our team's innovation, drive and dedication towards our clients have been the key to Milano's constant growth, year after year. We believe the best way to predict the future is to design it and we at Milano, are focused on designing and offering futuristic products that are practical, efficient and environment friendly. We take this opportunity to reiterate our commitments, to offer quality products with long-term value. This is what truly differentiates us from all our competitors.

MESSAGE FROM DIRECTOR

MR. ADEL SAJAN
Director Danube Group

It's Always Customer Needs Matter!!!
Taking care of our customer, paying more attention to the customer demands, understanding the needs & meeting their requirements with affordable prices has always been top priority for us.
We continuously strive to focus more on innovations, new technologies, which enables them to enjoy more efficiently & make peoples life more safe & comfortable.
Milano offers wide range of lighting (indoor & outdoor), switches, Fans & VPDS, Available across all our stores in UAE, OMAN, BAHRAIN & KUWAIT. With these range it makes complete one stop shopping solution for all your residential & commercial needs.

MESSAGE FROM PRODUCT MANAGER

MR. PRADEEP BADDI
Product Manager-Electrical

Since the inception of electrical products under the Milano brand, our customer-centric approach has always been our key strength. Our commitment is to deliver innovative and superior quality products that cater to our customer's needs and lifestyle. Our products like lightings, wiring accessories, fans and video door phones, are all well-crafted to suit various types of interiors and exteriors and are highly appreciated for their performance, reliability and functionality. At Milano, we will continue to design and offer user-friendly and unique spectrum of affordable products that add elegance, sophistication and style to every home, villa and office."

ABOUT LED

What is the LED?

LED is the acronym for light-emitting diode (Light EmittingDiode), Which is a semiconductor solid light emitting device, it is the use of solid semiconductor chip
as Lumenescent material, when ends with a positive voltage, the semiconductor carrier recombination occurs caused by
photon emission and to produce light.

LED lighting:
It is the use of LED as a light source of lighting.

What is the COB?
COB (Chip On Board) LED chip light source is directly attached to the metal substrate high specular reflectance, forming high-efficiency integrated surface light source.

Color temperature:
Unit: kelvin (K) when the color of light emitted by "blackbody" at a certain temperature the color photograph of radiation at the same time, the temperature "blackbody" is called the color temperature of light source. "blackbody" the higher the temperature, the spectrum of blue components, the more and the less the red components. Incandescent light color is warm white, for example, said the color temperature is 2700 k, and the sun color fluorescent color temperature of the said method is 6500k.

Color rendering:
Light for the degree of colors is called color rendering. Usually called "color rendering index" (Ra).
Refers to the real things color (its own color) and a standard light shows the color of the relationship. The determination of Ra value is DIN6169 standards defined in the eight kinds of testing color in standard light source and the tested under the light source, the smaller the color difference is showed by metering source color the better color rendering.

Beam angle:
It refers to the vertical plane of the beam center line, the Lumenosity equal to 50% of the maximum angle between two directions between Lumenosity. Beam angle is reflected in the wall spot size and intensity. If the application of the same light source at different angles reflector, the greater the beam angle, the center of the light intensity weaker, the softer spot. The smaller the beam angle, the center of the light intensity, the stronger, the more intense the spot.

Lumenous flux:
Unit is: lumen (lm) light source emission and human eye perception of radiant energy is called the Lumenous flux.

Light intensity:
Light source in a certain direction within the solid Angle of Lumenous flux in size. Unit: candela (candela, cd) in general, will light in different
directions with different intensity of the emitted Lumenous flux. In a particular direction the visible radiation intensity is called out by the light Intensity.

LED SLIM PANEL LIGHT ROUND

LED SLIM PANEL LIGHT ROUND

• Product Features:

1. High standard Aluminium die-casting & high thermal conductive silicon which provides quick heat dissipation.

2. High quality LED chips are mercury free and prevents discoloring, providing brighter & uniformity light.

3. High quality acrylic light guide plate (LGP) gives good reflectivity & high permeability.

4. High color rendering Index (CRI) ≥80, restores true color of the object.

5. Adopts constant current supply to start up the light quickly has high energy saving & does not flicker.

6. Easy installation & zero maintenance.

• Application:

Commercial, Residential, Hospital, Restaurant, Shopping mall etc.

Description:

The Milano slim panel lights are designed to deliver superior brightness and uniformity due to its latest LED technology.

The thickness of the light is 22mm and it comes in a white matt finish. They are ideal lighting solutions for gypsum ceilings, which requires high lumen output.

Ra ≥80   25000h   100% INSTANT LIGHT   90% ENERGY SAVING   on/off ≥ 20.000 switch   IP20 Dust Proof   120°

LED COB DOWN LIGHT IP-44

• **Product Features:**

1. Up to 70% energy saving compared to standard CFL.

2. IP44 for indoor use only.

3. 60° wide beam angle.

4. No UV/IR light.

5. Environment friendly, without Mercury or any otherhazardous substances.

6. Easy installation & zero maintenance.

• **Application:**

Commercial, Residential, Hospital, Restaurant, Shopping mall etc.

Note: These lights will be available against project orders.

Description:

Milano COB downlight IP44 is unique designed with reflector and Citizen COB high power LED chip. ADC12 Aluminium profile provides excellent thermal dissipation. Short heatsink designed for any ceiling installations. Isolated driver solution achieves great quality and stable long lasting light output.

LED DIMMABLE/REGULAR SPOT LIGHT

Movable Spot Light

Mini Spot Light

LED DIMMABLE / REGULAR SPOT LIGHT

• Product Features:

1. Attractive appearance.

2. High quality Aluminium provides good heat dissipation for erosion resistance.

3. High quality LED chips, Provides ≥ 80 Lumen per watt, High CRI ≥ 80, restores the color of the object.

4. Constant current designs, multi protection, no flickering & best in performance.

5. Available in movable cob frame to focus on particular image and object.

• Application:

Commercial, Residential, Hotels, Retail Stores, focusing objects etc.

Description:

Milano regular and dimmable spot light has an Aluminium base body which provides high rate of heat sinking capacity, with the beam angle of 40 degrees, it delivers more light on the focused object.

Milano dimmable spot lights have an Aluminium die cut with the latest LED technology. These lights can be dimmed according to the desired mood. These lights are used in cafeterias, restaurants and conference room.

These spot lights are ideal to replace the tradition halogen spot light.

LED IP-54/65 CEILING LIGHT

Without Sensor (IP 54)

With Sensor (IP 54)

Squere (IP 65)

Omega (IP 54)

Description:

Milano ceiling lights are designed to provide the lightings for the outdoor usage with IP-54 ratings. These lights comes in two versions (with sensor and without sensor).

The sensor lights will turn on the light automatically when you pass by and turn off automatically when you leave off. These sensor lights can be adjusted the time delay, lux level of the light and the detection range as per your requirement.

LED IP-54 CEILING LIGHT

• **Product Features:**

1. Energy efficeint,Saves upto 90% Energy in comparison of traditional lights

2. Sleek & elegant design

3. Eco friendly, No hazardous substances like mercury or lead. Pollution free, NO IR,UV

4. Super bright with high lumen out put,

5. Easy to install & can replace the traditional lamp with CFL holders

LED IP - 54 WITH SENSOR

• **Sensor Features:**

1. Detection angle 360

2. Detection range 1-8 mtr (radii) adjustable

3. Time setting 10s-12 mins

4. Lux setting 10-2000 lux

5. Installation height 2.5-3.5m

• **Application:**

Bathrooms, Kitchens, Baloneys, Lobbies, Offices, Store rooms, Passages, etc.

LED TRI-PROOF FITTINGS

LED TRI-PROOF FITTINGS IP-65

• **Product Features:**

1. Uniform light output, bright and comfortable, alleviating eye fatigue, wide beam angle.

2. Professional waterproof technology IP65 to ensure safety and reliability

3. These LED light provides high lumens at daylight white 6000k with high efficiency of 90-100 lumen per watt.

4. Can be used as ceiling mount or wall mount

5. Highly durable, material used is PC cover & housing

• **Application:**

Parking lot, airport, tunnel, gallery, gas station, garages, warehouses, factories, shops, or utility rooms, replaces traditional tube fixtures.

Description:

Milano IP-65 LED Tri-proof light are innovative light which can used for multipurposes like, Batten fitting for indoor use, water proof light as paking areas or super markets/ industrial purpose. Due to its sleek & elegant design , it can be used indoor & out door. With an extra long life rating of 300,000 hours, They can easily replace your existing light and never replace again.These LED light are easy for installation & maintainance.

VIDEO DOOR PHONES

7" Video Door Phone Silver

7" Video Door Phone With
Photo Taking Function

7" Video Door Phone 2 Moniter
With 1 Cam

Description:

Milano video door phone has 3 range(Single Monitor, 2 monitors with single camera & Auto photo taking fucntion) & These VDP features 7 inch HD screen for clearer display. has the features of intercom system for Villa, home or office offering several operating modes.

VIDEO DOOR PHONE

● **Product Features:**

7˝ Video Door Phone Silver

1. Video intercom calling monitor.

2. Door release function.

3. Weather proof and durable.

4. Outdoor station with night vision.

5. Volume , Brightness, Melody adjust fucntion.

6. Rain Protect cover for out door camera.

7˝ Video Door Phone With Photo Taking Function

1. Video intercom calling monitor.

2. Auto photo taking function, when the visitor press the outdoor button, 2 photos will taken & recorded auto matically.

3. Door release function.

4. Weather proof and durable,rain protect cover for out door camera.

5. Outdoor station with night vision.

6. Volume , Brightness, Melody adjust fucntion.

7˝ Video Door Phone 2 Moniter With 1 Cam

1. Outdoor units with 2 calling button, Can be used to call Villa with 2 floors or Flats

2. Two HD indoor Monitor , can be used in 2 diffdrent rooms of same villa or flats

3. Weather proof and durable,Rain Protect cover for out door camera.

4. Volume , Brightness, Melody adjust fucntion

5. Outdoor station with night vision.

● **Application:**

Villa, Flats, Residential aprtments etc..

LED FLOOD LIGHT

Power: 10W, 20W, 30W, 50W

SMD SERIES
Power: 15W, 30W, 60W, 100W, 150W, 300W

Power: 100W

Power: 150W

Description:

Milano flood light, comes with a high intensity die-cast Aluminium body. Better heat distribution structure material. It can resist the impact and friction. The Lumen efficiency can reach up to 90%. LED flood light are widely used in shopping center, parking lot and either indoor and outdoor light application.

RECHARGEABLE FLOOD LIGHT

• Product Features:

1. Attractive appearance, high quality pure Aluminium housing, good heat dissipation and erosion resistant.

2. High CRI **>** 80, which restores true color of object. IP-65

3. Adopts constant current supply to start up the light quickly.

• Application:

Commercial, Residential, Hospital, Restaurant, Shopping mall etc.

Ra ≥80 | 25000h | 100% INSTANT LIGHT | 90% ENERGY SAVING | on off ≥20.000 switch | IP65 Water Proof | 120°
